DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: The specification is replete with problems concerning with idiomatic English. Appropriate correction is required.

Claim Rejections - 35 USC § 112

1. Claims 1-3 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, for example:

- Claim 1 is not in proper idiomatic English;
- Claim 1 is narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device;
- There is no proper antecedent basis for "the upper end face" in lines 6 and 11; and
- There is no proper antecedent basis for "the bottom" in line 9.

The above are only a few examples of 35 USC 112, paragraph two deficiencies in the claims. Applicant is required to correct all such deficiencies in his next response. Claims and specification should be revised so as to conform with U.S. practice.

Art Unit: 3749

2. Claims 1-3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Each of Guenther, Wright, Hein, Nakaura, Kuriyama and Knight is cited to show a plate-shaped premixed combustion gas burner.
